Coloring Fur: Short & Long Fur

Coloring Coach: Jones Flores

TIP #1: Practice the "3-Tone Rule" by choosing 3 tones from the same color: light, medium and dark.

TIP #2: When coloring hair or fur, the most important aspect is following the DIRECTION of the fur/hair to achieve realistic results.

TIP #3: Fur consists of individual strands but coloring should be in clumps and clusters. Color them area by area.

TIP #4: Use the "Eraser Technique" to bring out the details of the tips where fur meets the background.
